

Calcium Injections Informed Consent

Client's name _____ Date _____

Calcium helps maintain total body health and has been shown to be beneficial in helping to: maintain strong bones and teeth, to ensure the proper functioning of muscles and nerves, and also helps to promote blood clotting. It can also aid in the treatment and prevention of osteoporosis, hypertension, colon cancer, cardiovascular disease, and premenstrual syndrome.

Calcium Injections are better absorbed by the body since they go directly into the blood stream. Alternatives to these injections are Oral Vitamins, Capsules, and Liquid drinks.

Calcium Injections common side effects include but are not limited to:

1. Risks: I understand there is risk of mild diarrhea, upset stomach, nausea, a feeling of pain and a warm sensation at the site of the injection, a feeling, or a sense, of being swollen over the entire body, headache and joint pain.
2. If any of these side effects become severe or troublesome I will contact my physician immediately.
3. I understand that although rare Calcium injections can result in serious side effects. Although this is a relatively rare occurrence, anyone taking Calcium injections should be aware of the possibility. Uncommon side effects are much more serious than the common side effects of Calcium injections, and such side effects should be reported to a physician to be evaluated for seriousness. Uncommon and dangerous side effects include:
 - headache
 - increased risk of kidney stones
 - nausea
 - bloating
 - constipation
 - indigestion or heartburn
 - gastrointestinal hyperactivity
 - mild stomach upset
4. Before starting Calcium injections I will make sure to tell my Physician if I am pregnant, lactating or have any of the following conditions.
 - Kidney disease
 - Liver disease
 - Osteoporosis
 - Cardiovascular disease
 - Hypertension
 - History of Kidney Stones
 - An infection
 - Iron deficiency
 - Dependent on intravenous nutrition (TPN) or liquid nutrition products for food
 - Diabetes, mellitus, or high blood sugar levels

- An unusual or allergic reaction to any other medicines, foods, dyes, or preservatives
5. I understand that certain herbal products, vitamins, minerals, nutritional supplements, prescription and non prescription medications may result in side effects when they interact with the Calcium Injection.
 6. Treatments: Will be determined by the provider.

I understand and agree that all services rendered to me are charged directly to me and that I am personally responsible for payment. I further agree in the event of non-payment, to bear the cost of collection, and/or Court cost and reasonable legal fees, should this be required.

By signing below, I acknowledge that I have read the foregoing informed consent and agree to the treatment with its associated risks. I hereby give consent to perform this and all subsequent Calcium Injections with the above understood. I hereby release the doctor, the person injecting Calcium, and the facility from liability associated with this procedure.
