The purpose of this procedure is to diminish the appearance of fat in the areas indicated above. The procedure requires more than one treatment and may produce some reduction in the appearance of fat. The total number of treatments will vary between individuals. On occasion there are patients that do not respond to treatments so the outcome cannot be guaranteed. Alternative methods are available from dermatologists or plastic surgeons.

The following problems may occur with the Zerona light system.

- 1. There is a risk of scarring.**
- 2. Short term effects may include reddening, mild burning, temporary bruising or blistering.** These conditions usually resolve within 1-3 months, but **permanent color change is a rare risk.** Avoiding sun exposure before and after the treatment reduces the risk of color change.
- 3. Infection:** Although infection following treatment is unusual, bacterial, fungal and viral infections can occur. Should any type of skin infection occur, additional treatments or medical antibiotics may be necessary.
- 4. Bleeding:** Pinpoint bleeding is rare but can occur following treatment procedures. Should bleeding occur, additional treatment may be necessary.
- 5. Compliance with the aftercare guidelines is crucial for healing.**

Occasionally, unforeseen mechanical problems may occur and your appointment will need to be rescheduled. We will make every effort to notify you prior to your arrival to the office. Please be understanding if we cause you any inconvenience.
